

A young child in a Batman costume, including a grey mask with pointed ears and a black suit with a bat emblem, is waving their right hand. The child is smiling and looking towards the camera. The background is slightly blurred, showing other people in a public setting.

Give the RASopathies Network a Treat this Halloween

Between **now and October 31, 2014** text “**RARE**” to **85944** and reply **YES** to make a \$10 donation to advance RASopathies research and help this batman soar.

Your \$10 donation is tax-deductible *and* the EveryLife Foundation will match up to \$1,000.

Thank you so much for your support!

RASopathies Network USA is a 501c3 Nonprofit Charity ~ <http://rasopathiesnet.org>

RASopathies

~ A group of rare genetic conditions caused by mutations in genes of the Ras-MAPK pathway

Syndromes include:

- Cardio-Facio-Cutaneous (CFC)
- Costello (CS)
- Legius
- Neurofibromatosis type I (NFI)
- Noonan (NS)
- Noonan with Multiple Lentigines (NSML)/LEOPARD

What they share:

- distinct facial features
- developmental delays
- cardiac defects
- growth delays
- neurologic issues
- gastrointestinal difficulties

RASopathies are among the most common genetic syndromes (~1:1000)
