Boston Children's Hospital

NEW INTERNATIONAL RESEARCH STUDY

Share your Noonan syndrome experience

Researchers at Boston Children's Hospital are exploring the musculoskeletal pain experiences of individuals with Noonan syndrome and their families around the world.

Who can take part?

Individuals **aged 13 and older** with any of the following, as well as their **parents and caregivers**:

- **Noonan syndrome**
- **Noonan syndrome with Multiple Lentigines** (formerly LEOPARD syndrome)
- **Noonan syndrome with Loose Anagen Hair**
